Put your total minutes read for each row in these boxes!

Record your minutes read here! You can make each bubble represent a certain number of minutes (ex. 15 or 30 minutes) and color in a bubble each time you read that amount of time. **OR**, you can use a new bubble for each reading session and write down how many minutes you read in one sitting! Every minute that you read (aloud or by yourself) or that you're being read to counts.
